PRICE LIST: Price details for PHOTOMOD^{TM} software

PHOTOMOD version 4.3.

Prices of recommended PHOTOMOD software suites for using <u>on one computer</u>

Scope of delivery				Modules and their functions	Price, USD
Obligatory for any local suit				**PHOTOMOD Core*** (project creation and management, initial data input, block-wide operations)	1900
+	+	+	+		
+	+	+	+	**PHOTOMOD AT** (interior orientation, GCPs input, relative orientation)	2300
+	+	+	+	**PHOTOMOD SolverA** (block adjustment, exterior orientation of stereo pairs and single images of **Central projection**)	2100
–	–	+	+	**PHOTOMOD SolverS** (RPC block adjustment, exterior orientation of stereo pairs and single images of **Pushbroom scanners**)	2100
–	+	+	+	**PHOTOMOD DTM** (creation and editing of DTM and contour lines)	2500
–	+	+	+	**PHOTOMOD Mosaic** (orthorectification and mosaic)	1800
+	–	+	+	**PHOTOMOD StereoDraw** (stereo feature extraction)	2700
+	–	–	+	**PHOTOMOD VectOr** (professional map editor, DTM and orthophoto processing**)**	1000
10000				**Suite I.** PHOTOMOD for stereo and mono feature extraction**.** Central projection cameras	
	10600			**Suite II.** PHOTOMOD for DTM and orthophoto production. Central projection cameras	
		15400		**Suite III.** Universal suite	
			16400	**Suite IV.** Full local suite	
Supplementary module				**PHOTOMOD StereoVectOr** (stereo feature extraction, works seamlessly with a vector map of **VectOr** module)	2700
Supplementary module				**PHOTOMOD StereoLink** (stereo feature extraction within Microstation environment)**	2700

Each suit includes: hardlock key, installation CD, documentation on CD.

Shutter glasses are not included and should be ordered additionally according to the Customer's preferences.

Any module of a suit can work only on the computer where the hardlock is installed.

* Includes **Montage Desktop** module and a set of utilities

** Licence of Microstation 95/.SE/J is required.

SPECIAL OFFER

PHOTOMOD version 4.3.

<u>Local suite for scanner imagery processing</u>

Configuration	Price
PHOTOMOD modules**: Core, AT, SolverS, DTM, Mosaic, StereoDraw**	7700

Can be used for processing of pushbroom scanner imagery only. Includes: hardlock key, installation CD and documentation on CD.

Shutter glasses are not included and should be ordered additionally according to the Customer's preferences.

Any module of a suit can work only on the computer where the hardlock is installed.

No additional discounts are applicable in this case.

PHOTOMOD version 4.3.

Prices of PHOTOMOD software modules for using in a <u>local network</u>

Modules and their functions	Price, USD
PHOTOMOD Core (project creation and management, initial data input, block-wide operations)	**3800**
PHOTOMOD AT (interior orientation, GCPs input, tie points measurements, relative orientation)	**2800**
PHOTOMOD SolverA (block adjustment, exterior orientation of stereo pairs and single images of **central projection**)	**2800**
PHOTOMOD SolverS (exterior orientation of stereo pairs and single images of **pushbroom scanners**)	**2800**
PHOTOMOD DTM (creation and editing of DTM and contour lines)	**3200**
PHOTOMOD Mosaic (orthorectification and mosaic)	**2300**
PHOTOMOD StereoDraw (3D stereo feature extraction)	**3500**
PHOTOMOD VectOr (professional map editor, DTM and orthophoto processing)	**1200**
PHOTOMOD StereoVectOr (parallel work with a vector map in StereoDraw and VectOr modules)	**3500**
PHOTOMOD StereoLink (stereo feature extraction within a Microstation environment)*	**2700**

The selected configuration is supplied with hardlock key, installation CD, documentation on CD.

Shutter glasses are not included and should be ordered additionally according to the Customer's preferences.

Any module of a suite can work on any computer in the network where the hardlock is installed.

*License of Microstation 95/SE/J is required.

When a network configuration is purchased only one PHOTOMOD Core module should be paid while it is supplied in quantity required for simultaneous work of all purchased modules.

The price of upgrade from a local to network configuration with the same set of modules is the difference in prices of the local and network configurations.

Stand alone programs

Program name	Price, USD
PHOTOMOD ScanCorrect (geometric calibration of desktop publishing scanners)*	**600**
PHOTOMOD GeoMosaic (geocoding, mosaicing and transformations of raster images)	**900**

Supplied with hardlock key and documentation on CD.

* Supplied with plastic grid for DTP scanner calibration

PHOTOMOD Radar software package

(RADARSAT, ERS-1/2, ENVISAT, ALOS, SIR-C/X data processing)

Modules and their functions	Price, USD
Geo Processor (georeferencing, geocoding, orthorectification)	**2000**
Stereo Processor (DEM generation using stereo processing)	**2500**
Interferometric Processor (interferometric SAR data processing)	**2500**
Image Processing Tools (SAR data classification, filtering, edge detection)	**1700**
Oil Spill Detection Processor	**1200**
Full suite	**9900**

Supplied with hardlock key, installation CD and documentation on CD.

TECHNICAL SUPPORT AND UPGRADES

Price and details for technical support and software upgrades

Software comes with <u>one year</u> technical support including:

- answers to technical questions by phone, fax and e-mail;
- free software upgrades.

The price of one year technical support renewal is 20% of the current price of the existing software configuration.

If new modules are developed, they are not included in the regular upgrades and should be paid additionally.

Upgrade files are delivered through Internet or by post on CD. Documentation is supplied in electronic form (PDF files).

If the upgrade requires a dongle exchange the customer will be charged for additional $200 to cover a new dongle cost and postal expenses.

DISCOUNTS

Quantity discounts: 2nd copy of each module or suite -10%, 3rd copy -12,5%, 4th copy -15%, 5th copy -17,5%, 6th copy-20%, more - call.

Training courses in PHOTOMOD or PHOTOMOD Radar

N	Course	Place	Duration	Price, USD
1	"PHOTOMOD basic training courses. General principles and main stages of the photogrammetric production line" **or** "Basic training courses in PHOTOMOD Radar"	Moscow*	1–2 weeks	200/day for one person
2	"PHOTOMOD advanced training courses in specific applications" **or** "Advanced training courses in PHOTOMOD Radar"	Moscow*	1-2 weeks	200/day for one person

*Courses at the Customer's place are possible but should be specially negotiated.

Accessories

Name	Price, USD
Printed documentation *	**40**
Shutter glasses from "Ibik" company or from "STEL" Corp., Russia	**200**
NuVision shutter glasses from MacNaughton Inc., USA, http://www.nuvision3d.com	**On request****
NuVision shutter glasses from MacNaughton Inc., USA, http://www.nuvision3d.com	**On request****
Plastic grid for DTP scanner calibration (23x23 cm, 5mm cell size)	**20**

* Consist of set of brochures for each modules and stand alone programmes. Price per one brochure.

** Direct purchase from MacNaughton Inc. or drop-shipment is preferable to minimize the Customer's delivery expenses.
